# Marcello Rossi

I currently work as a team leader in Techedge's Mobile & Cloud department. I am a full stack developer, also responsible for designing applications, team management, and conceiving cloud architectures.  
I lead a team of 30 people, for whom I am responsible in terms of technical training and personal mentorship.  
I am a fervent sustainer of agile and adaptiveness, a passionate software developer, and a firm believer in the importance of interdisciplinarity and multi-learning.

10

Years  
of experience  
in IT projects.

30

People  
in the team I  
am responsible for.

7

Certifications  
between cloud,  
agile and design.

## Software

SENIOR

Software development is my strongest skill. Beginning with Microsoft technologies, I explored the open-source world as well (especially javascript) and landed as a full-stack developer. I am a design pattern nerd and a TDD enthusiast.  
During my experience I worked on more than 50 projects, designing software architecture and leading a technical team that now counts 30 people.

Microsoft Certified

## Agile

INTERMEDIATE

I apply agile & lean techniques to project and people management. I have worked on several projects both in Scrum and Large-Scale-Scrum methodologies.  
For me, the most important agile values are: inspect & adapt, and continuous improvement, which I continuously advocate with my team.

## Design

JUNIOR

In the last two years, I have been honing my skills in design, making a serious investment in courses, training, and mentorship with senior designers.  
I still consider myself a junior in this specific area, but my hope is to acquire more and more design expertise and be a bridge between software developers and designers, in order to create beautiful products that people will love, having a positive impact on the world we live in.

## Work and Study experiences

2017 - present

### Avvale

Via Caldera 21, Milan, Italy

2020 - present

### Team Leader

I currently work as a team leader in Techedge's Mobile & Cloud department. I am a full stack developer, also responsible for designing applications, team management, and conceiving cloud architectures.

I lead a team of 30 people, for whom I am responsible in terms of technical training and personal mentorship.

I am a fervent sustainer of agile and adaptiveness, a passionate software developer, and a firm believer in the importance of interdisciplinarity and multi-learning.

2017 - 2020

### Senior Consultant

During my first two years in Techedge, I worked as a senior software engineer and technical lead. I was one of the first developers in my area and I had the objective of forming a team to supply the growing demand in Milan's office. At the end of these two years, the team counted eight developers I personally interviewed and trained to become full-stack developers. The involved technologies were .NET, C#, java, javascript, and SQL.

2014 - 2017

### Altran S.p.A.

Corso Sempione 66, Milan, Italy

2014 - 2017

### Consultant

Technical Specialist and IT Consulting for Financial Services. During this experience, I learned the basics of full-stack software development in java, javascript, .NET through several projects in the Banking and Insurance areas. Along with the technical activities, I was involved in the analysis and backlog refinement of the products I worked on, learning the principles of Agile and Scrum.

2008 - 2014

### Master's Degree in Physics

Theoretical physics, computational calculus and Monte Carlo simulations, advanced statistics, computer molecular dynamics, study of stochastic processes, Markov chains, and statistical mechanics. Degree: 109/110.
