

Marcello Rossi

I currently work as a team leader in Techedge's Mobile & Cloud department. I am a senior full-stack developer, and I am also responsible for designing applications, project management, supervising project budgets, and conceiving cloud architectures. Finally, I lead a team of 30 people, for whom I am responsible in terms of technical training and personal mentorship.

I am a fervent sustainer of agile project management, a passionate software developer, and a strong believer in the importance of interdisciplinarity.

Years
of experience
in IT projects.

Software

I started my career as a software developer. Beginning from Microsoft technologies, I explored the open-source world as well and landed as a full-stack developer. During my experience I worked on more than 50 projects, designing software architecture (always on the cloud in the last three years) and leading a technical team that now counts 30 people.

C# Typescript Node.js Python

React HTML CSS/SCSS JS

SQL Server Oracle MySQL MongoDB

Azure Docker Kubernetes

AZ-900 Azure Fundamentals

Microsoft Certified

AZ-204 Azure Developer Associate

Microsoft Certified

AZ-420 Azure Cosmos DB

Microsoft Certified

Agile

I apply agile & lean techniques to project and people management, frequently playing the role of Scrum Master. I have worked on several projects both in Scrum and Large-Scale-Scrum methodologies.

For me, the most important agile values are: inspect & adapt, and continuous improvement, which I continuously advocate with my team.

Agile Scrum Kanban

Less Retrospective Facilitation

Extreme Programming

Certified Scrum Master

Scrum Alliance

Certified Scrum Product Owner

Scrum Alliance

Certified LESS Practitioner

Scrum Alliance

Design

In the last three years, I have been honing my skills in design, making a serious investment in courses, training, and mentorship with senior designers.

My hope is to acquire more and more design expertise and be a bridge between software developers and designers, in order to create beautiful products that people will love, having a positive impact on the world we live in.

Work and Study experiences

2017 - present

Techedge S.p.A.

Via Caldera 21, Milan, Italy

2020 - present

Deputy Practice Manager

I currently work as a team leader in Techedge's Mobile & Cloud department. I am a senior full-stack developer, and I am also responsible for designing applications, project management, supervising project budgets, and conceiving cloud architectures. Finally, I lead a team of 30 people, for whom I am responsible in terms of technical training and personal mentorship. I am a fervent sustainer of agile project management, a passionate software developer, and a strong believer in the importance of interdisciplinarity.

2017 - 2020

Senior Consultant

During my first two years in Techedge, I worked as a senior software engineer and technical lead. I was one of the first developers in my area and I had the objective of forming a team to supply the growing demand in Milan's office. At the end of these two years, the team counted eight developers I personally interviewed and trained to become full-stack developers. The involved technologies were .NET, C#, java, javascript, and SQL.

2014 - 2017

Altran S.p.A.

Corsso Sempione 66, Milan, Italy

2014 - 2017

Consultant

Technical Specialist and IT Consulting for Financial Services. During this experience, I learned the basics of full-stack software development in java, javascript, .NET through several projects in the Banking and Insurance areas. Along with the technical activities, I was involved in the analysis and backlog refinement of the products I worked on, learning the principles of Agile and Scrum.

2008 - 2014

Master's Degree in Physics

Theoretical physics, computational calculus and Monte Carlo simulations, advanced statistics, computer molecular dynamics, study of stochastic processes, Markov chains, and statistical mechanics. Degree: 109/110.
